You should have a letter to bring with you

Please take a seat in the waiting area and ring the bell

We will come and get you when it is time for your appointment

The person doing your scan will ask you to move your clothes so they can put gel

The scan might take 10 minutes

Sometimes the scan might take 45 minutes

When the scan is finished you can wipe the gel off your skin with paper towels

You will be told when you can leave

Your doctor will let you know the results

**We have made another leaflet on how to find us**
