Orthopaedic Surgery Discharge

Patient information

Orthopaedic Surgery Discharge

Excellent patient care, together

Orthopaedic Surgery Discharge

You are probably looking forward to getting home, but please speak to ward staff if you have any concerns. This leaflet advises about discharge, what follows and who you can contact if you need further help.

Pain

Please take the medication that we have prescribed for you and use it as instructed. As your pain improves you can reduce the amount of medication. Do not just stop without first reducing how much, or how often you take it.

Constipation is usual following surgery; it is caused by immobility and pain medication. You should drink plenty of fluids and eat fruit and fibre. Extra laxatives, including suppositories, can be bought over the counter.

Wound

Book an appointment with your GP practice nurse seven to 10 days from surgery for a wound check. Leave the dressing on until then reinforce if peeling.

Blood thinning medication

Take the tablets or injections as prescribed.

Mobility

Remember to stay mobile and continue your exercises, you can use ice on your surgical site for knees, (behind above and below joint) hips and shoulders for 20 minutes three to four times a day in a cloth to protect your skin.

Follow up care appointments

An appointment will be sent to you for:

.....

If you are given mobility aides, please return them to the inpatient therapy return box at the main reception at St Albans City Hospital when no longer needed.

If you have any questions or concerns after you have been discharged, please do not hesitate to contact the ward for advice.

You can contact De La Mere Ward for routine enquires on 01727 897139 / 121.

If you're still concerned, please contact your GP or telephone NHS 111.

In an emergency telephone 999.

Staff will discuss with you community organisations which may be able help -

Age UK Hertfordshire is an independent charity which offers help and service for over 50s in Hertfordshire who have had a stay in hospital or been unwell and need support at home to regain their independence.

British Red Cross at Watford General Hospital provides assisted discharge support to help vulnerable or elderly patients who are medically fit to leave hospital, but who may not have friends or family close by to help when they arrive home.

Carers in Hertfordshire - Carers play a vital role in ensuring the health and wellbeing of those for whom they care. This support group, which is run by the trust, provides advice and support for carers who are using any of our hospital services.

If you need further community support as a carer, please contact Carers in Hertfordshire on 01992 58 69 69.

Herts Help - Hospital and Community Navigation Service. This provides free, independent service will support Hertfordshire residents who have recently been discharged from hospital, have been unwell or if you need to manage your health and wellbeing.
